

Art E-Learning 4th Grade

Students can have a choice of using *Hello Colored Pencil* or *Colorfy* to complete their work. They must complete one picture but can always do both if they want to.

Hello Colored Pencil-Students need to use their I-Pads and create a picture using Hello Color Pencil. Open the app and click on the open button. Allow it to access your photos. Select a photo that you want to use to create with. Use the app to re-design and color your entire photo. Be sure to take a snapshot of the finished photo and upload it onto your Seesaw account when you get to school, so Mrs. Fields can see your work submitted.

Colorfy- Open the app and select a picture you want to color. Make your own masterpiece. When you are finished take a snapshot of your art work and post it onto your Seesaw account, when you get to school, so Mrs. Fields can see your work submitted.
